# Work by B in Cabin

Our office booth, available in Duo and Quattro+, is meticulously designed for comfort, elegance, and durability. The interior lining features repositionable velcro closures and removable cushions for easy cleaning. The foam used ensures exceptional support and comfort. Together, these components create a deeply satisfying experience, promoting both physical and mental well-being.

## Special options

### "Natural" Worktop

20 mm thick, it is cast in translucent PMMA with a hand-created decoration, making it a UNIQUE PIECE.

In the NATURE configuration, we chose to incorporate natural plants and copper crystals.

This master piece is lit by a warm white LED ribbon, to accentuate the effect of Nature and Well-being within the booth (the screen is not included in the option).

### Comfortable armrests

The armrests we offer provide comfortable support for the elbows, thus relieving muscle tension in the shoulders and improving comfort in our booth.

Our armrests are covered in stain-resistant microfiber fabric, also reminiscent of peach skin texture.

Set of two armrests.
